Course Level: Engaged Learning Program

Engaged Learning refers to experiences in which students apply their knowledge in educational settings beyond the classroom; delve further with independent scholarship and creative expression; broaden their horizons with study abroad or cross-cultural encounters; become problem solvers, leaders and team members in their communities, and prepare for professional and civic lives that make a difference.
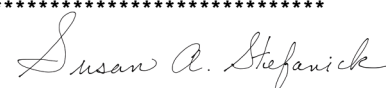

Beginning with the Fall 2017 entering class, Rider's students are required to complete at least two high-impact engaged learning experiences that reflect the University's learning outcome themes of leadership, ethics and social responsibility, and global and multicultural perspectives. These experiences help students build bridges between their courses of study and the world in which they live.
